SUBJECT INDEX VOLUME 57

AAPM task group report No43
Monte Carlo calculations for dosimetry parameters for the Model 3500 I-Plant ^{125}I brachytherapy source 381
^{11}C-Acetate
Synthesis 857*
Acidity
Changes during disproportionation reactions with plutonium 1
Actinium
^{225}Ac labelled chelates: design and synthesis for use as radio-immuno pharmaceuticals 841
Activation analysis
K_0NAA: characterization of neutron flux spectra using the Westcott-formalism 265
NAA: validation of method using k_0 standardisation 391
PGAA new fácility at the Budapest research reactor 573
Acyl chlorides
^{11}C labelling 675
Adsorption
Of radio-iodine on a platinum column 475
Airport
Security: detection of explosives by DR and CT 861
Algorithm
Convolution/superposition: accuracy of depth dose calculation in an acrylic phantom 825
Convolution/superposition: use in calculation of radiation dose in presence of a metal hip prosthesis 17
Alumina
Column: use in tandem with Dowex-1 and AgCl columns for pertechnetate generator 7
Alzheimers disease
Use of ^{3}H labelled tacrine in the cognition and as a chemotherapeutic agent 837
Americium
^{241}Am: investigation and evaluation of biosorption by *Rhizopus arrihizus* 139
^{241}AmBe: neutron and gamma spectra and dosimetric features 167
Ammonia
^{13}N labelled: production for PEP studies using a modified DeVarda reduction 201
Aniline
Production reactor: investigation of malfunction by radiotracer 319
Animal
Rat: bacterial clearance after total splenectomy and splenic autotransplantation 767
Antibody
Monoclonal: attachment to ^{225}Ac chelates for use in immunotherapy agents 841
Monclonal: labelling with ^{153}Sm 665
Antimalarial drug
Tritium labelling and characterization 343
Apparatus
Automated system for synthesising ^{18}F-labelled compounds using [^{18}F]fluoroethyl bromide: development 335
Arsenic
^{70}As: decay study 399
^{77}As: production in Portugese RPI reactor 657

*Denotes a Technical Note

PII: S0969-8043(03)00055-1

Ash
Content in coal: evaluation of measurement uncertainties in on-line measurement by γ-ray transmission 353
Atmosphere
Measurement of ^{7}Be properties using γ-ray spectroscopy 941
Attenuation coefficient
Linear: study of variance and covariance with measurements of irregular samples 445*
Autoradiography
Wholebody, of mice to determine the distribution of [^{99m}Tc] TRODAT-1 and other dopaminergic drugs 35
Azomycin glucuronides
^{99m}Tc labelled: coupling with PnAo for use as an imaging agent for hypoxia 719

Background
High radiation: loss of X-ray detection efficiency for CCD-detectors 867
Bacteria
Escherichia coli, ^{99m}Tc labelled: clearance after total splenectomy and splenic autotransplantation in rats 767
Barium
Ba(Ra)SO_4 microprecipitation: use for source preparation in the determination of ^{226}Ra 785
Separation at tracer levels by ion exchange on zirconium vanadate 471
Bayes rule
Use to derive detection limits by analysis of posteriori WBC data for ^{90}Sr 525
Beam
Cold neutron: use in the PGAA facility at Budapest 573
^{7}Li : use to produce thallium by heavy ion activation of gold foil 483
[carbonyl-^{11}C]2-(2-Benzoylphenoxy)-N-phenylacetamide
Synthesis from [^{11}C] carbon monoxide by the Suzuki and Stille reactions 681
Beryllium
^{7}Be: activity median aerodynamic diameter (AMAD) of Be associated aerosols and airborne radioactivity 941
Beta source
Energy response of an imaging plate 875
Bone
Pain palliation: use of ^{177}Lu labelled cyclic polyaminophosphonates 177
Borehole
Geometry: simulated γ-ray spectra of natural radionuclides using a MCNP code 449
Brachytherapy source
Best® Model 2301 ^{125}I: Monte Carlo evaluation of dosimetric characteristics 327
Dose rate distribution determination: dependence on the imaging plate energy response 875
Model 3500 I-Plant ^{125}I brachytherapy source: Monte Carlo calculations for dosimetry parameters 381
Preparation for eye and prostate cancer by adsorption of ^{125}I on silver wire 359
Bread
Extrinsic labelling of zinc and calcium 153
Breast
Estimation of mean glandular dose in mammography 791
Breast entrance skin air kerma (BESAK)
Use in determining mean glandular dose 791
Bromine
Determination in mussels consumed in Anatolia,Turkey 565
^{nat}Br(p,x) reactions: experimental and theoretical excitation functions 907
^{76}Br labelling of epibatidine for PET studies 713

Cadmium
^{111m}Cd: chemical speciation in aq. solution investigated by a 1-PAC detector method 437
Calcium
Extrinsic labelling of ^{47}Ca in bread and absorption 153
Carbon
^{14}C labelling of 8-chloro-11-(4-methyl-1-piperazinyl)-dibenz[b,f](1,4]oxazepine in the 11-position 501*
Carbon dioxide

^{11}C labelled: use in the production of ^{11}C acetate 857*
^{11}C labelled: use in synthesis of ^{11}C acyl chlorides 675
[^{11}C]carbon monoxide
Use in the synthesis of [carbonyl-^{11}C]2-(2-benzoylphenoxy)-N-phenylacetamide 681
[carbonyl-^{11}C]WAY-100635
Synthesis 675
Cesium
Computer modelling of chemical speciation in human duodenal fluids 159
Separation at tracer levels by ion exchange on zirconium vanadate 471
Charged coupled devices (CCD)
Saturation in high background environments 867
Chemical speciation
Computer modelling for Cs,U(IV) and Np(V) in human duodenal fluids 159
Of ^{111}In and ^{111m}Cd in aq. solution: investigation by a 1PAC detector method 437
Use to assess EDDS for decontamination formulations: Erratum in vol. 54 p. 587–593 291
8-Chloro-11-(4-methyl-1-piperazinyl)-11-[^{14}C]-dibenz[b,f][1,4]oxazepine
Synthesis 501*
(+/−)Chloroquine
Tritium labelling and characterization 343
Chromatography
Concentration of radio-iodine on platinum in aq. or anhydrous solvents 475
HPLC: use in the preparation of ^{11}C-acetate 857*
Ion: use in separation of ^{238}U,^{232}Th and rare earths from monazite 463
Use in ^{234}Th analysis in marine sediments 235
Ciprofloxacin
^{99m}Tc labelling and biodistribution 193
Coal
Ash content on-line measurement by γ-ray transmission: evaluation of uncertainties 353
Code
ALICE(IPPE): use to calculate theoretical cross sections for the ^{nat}Br(p,x) reactions 907
MCNP: use to simulate dose rate distribution in a γ-irradiator system 537
MCNP: use to simulate γ-ray spectra of natural radionuclides for a BGO detector in a borehole geometry 449
OMEGA/BEAM and DOSXYZ: use in Monte Carlo simulation of depth dose curves in an acrylic phantom 825
Colour centre
In X-ray irradiated soda-lime silicate glass: fading behaviour 813
Column, 'jumbo'
Use in pertechnetate generation 7
Computer
Modelling for chemical speciation of Cs,U(VI) and Np(V) in human duodenal fluids 159
Contamination
Radioactive: detection by vary low background detector installed deep underground 209
Copper
^{64}Cu: production in Portugese RPI reactor 657
^{64}Cu, n.c.a: separation from a proton irradiated ^{64}Ni target 773
Determination in mussels consumed in Anatolia, Turkey 565
Coster-Kronig vacancy transfer factor
For L_3 subshell X-rays of Au, Hg, Pb, Tl, Bi, Th and U at 59.5 keV 63
Counting
Efficiency in γ-ray spectrometry: effect of sample position 415
Liquid scintillation: use in ^{234}Th analysis in marine sediments 235
Liquid scintillation with DPM: use to determine ^{90}Sr in liquid waste samples 257
^{90}Sr whole body burden: evaluation of uncertainties 5
[carbonyl-^{11}C] Cyclohexanecarbonyl chloride
Use in synthesis of ^{11}C-acyl chlorides 675
Cyclotron
Facilities for PET applications: positron monitor for estimation of stack effluent releases 899

MC-17 production of ^{18}F 303
Production of Tc isotopes induced by proton irradiation of a Mo target 617

Dating
ESR of subfossil shell from Couve island, Brazil 497
Decay
Of ^{189}W 637
Study of level scheme for ^{70}As 399
Depth dose curves
In an acrylic phantom:accuracy of calculations at the condition of electron disequilibrium 825
Detector
Charge coupled devices: saturation in high background environments 867
γ-γ-perturbed angular correlation one- method (1-PAC): use to investigate the chemical speciation of ^{111}In and ^{111m}Cd in aq. solution 437
HPGe: analysis of γ-ray spectra in field conditions without explicit energy calibration 67
HPGe: determination of the self absorption correction for sediment samples 915*
HPGe,very low background: operation deep underground for radioactive contamination detection 209
Linear array: use in X-ray based tomography and minimisation of artifacts 543
LR115: bulk etching rate 275*
On-line flow scintillation: coupling with a chromatographic column in the separation of ^{238}U, ^{232}Th and rare earths 463
NaI(Tl), γ-ray response functions: Monte Carlo simulation 517
SSNTD: use in the measurement of thorium in building materials and dwellings 285
System for monitoring residual activity in silicon rods after neutron irradiation 801
Wire-plane corona streamer (WPCSD): sensitivity when an α-particle source is moved in a parallel plane 557
DeVarda alloy
Use in the production of $[^{13}N]NH_3$ for PEP studies 201
Dopamine
Transporter imaging agent: biodistribution of $[^{99m}Tc]$TRODAT-1 in mice 35
Dose
Calculation: accuracy of the convolution/superposition algorithm at the condition of electron disequilibrium 825
Effect of a metal hip prosthesis in therapeutic photon beam irradiations 17
Estimation in mammography 791
Mapping in a gamma irradiator system using the MCNP code 537
Reconstruction from WBC measurements of ^{90}Sr 525
Dosimeter
MOSFET: use to estimate mean glandular dose to breast in mammography 791
MOSFET and TLD-100H: evaluation for use in diagnostic radiology 883
Dosimetry
Features of ^{239}PuBe and ^{241}AmBe sources calculated from neutron spectra 167
Monte Carlo evaluation of characteristics of the Best® Model 2301 ^{125}I brachytherapy source 327
Of $[^{14}O]$ water produced for PET studies 607
Parameters for Model 3500 I-Plant ^{125}I brachytherapy source: Monte Carlo calculations 381
Parameters of a new ^{103}Pd seed, InterSource^{103} 805
Study of the properties of colored glasses 407
DOTA
^{99}Y labelled: evaluation for intra-vascular radionuclide therapy 313
DTPA
^{99}Y labelled: evaluation for intra-vascular radionuclide therapy 313
Dutch protocol NVN5623 radioactivity measurements
Gamma-ray spectrometry intra- and interlaboratory test
Dysprosium 73
^{165}Dy:production in Portugese RPI reactor 657

E' centre
In unstrained quartz grains: ESR 491

EDDS
Assessment by chemical speciation as a replacement for EDTA in decontamintion formulations: Erratum in vol. 54 p. 587–593 291
Editorial
'A remarkable contribution': dedication of a special issue to the memory of Richard M. Lambrecht 603
Electron disequilibrium
Effect on dose calculations 825
Element
Multi: determination in soil using energy dispersive X-ray fluorescence (EDXRF) 279
Multi: validation of analysis by NAA using k_0 standardisation . 391
ESR
Dating of subfossil shell from Couve Island, Brazil 497
Of E' centres in unstrained quartz grains 491
Studies of trehalose dihydrate 93
Enzyme
Carbonic anhydrase: binding of [^{18}F]FESDS in tumor bearing animals 687
Epibatidine
^{76}Br labelling for use as a ligand for nicotinic acetylcholine receptor studies 713
Equations
Balanced for plutonium reactions 1
Erratum
In: 'Chemical speciation used to assess EDDS as a biodegradable replacement for EDTA' In vol. 54 p. 587–593 291
Escherichia coli
^{99m}Tc labelled: clearance after total splenectomy and splenic autotransplantation in rats 761
Etching rate
Measurement by determining the thickness of the layer removed in LR115 detectors 275*
Excitation functions
For ^{nat}Br(p,x) reactions 907
Explosive
Detection by digital radiography and computed tomography 861

Fluorine
^{18}F labelled compounds: development of an automatic system for synthesis 335
^{18}F production using titanium and niobium targets 303
[^{18}F]fluorocholine
On-column preparation from [^{18}]Ffluoromethyl triflate 347
[^{18}F]FDG
Increased yield with recycled target [^{18}O] water 43
6-[^{18}F]fluoro-L-DOPA
N.c.a synthesis 145
16α-[^{18}F]fluoro-estradiol-3,17β-disulfamate ([^{18}]FFESDS)
Distribution in rats, tumor-bearing mice and piglets 687
O-(2-[^{18}F]fluoroethyl)-L-tyrosine
Preparation by ^{18}F fluoroalkylation 853
[^{18}F]fluoromethyl triflate
Preparation and application to on-column preparation of [^{18}F]fluorocholine 347
2-[^{18}F] fluoro-L-tyrosine
Synthesis via regiospecific fluoro-destannylation 185
Foam
Protein: liquid hold-up determination by a gamma scintigraphic method 243
'Form Talysurf'
Use in determining the bulk etching rate in LR115 detectors 275*
Fungus
Rhizopus arrihizus: biosorption of ^{241}Am 139

Gamma-ray
γ-γ coincidence set-up for prompt γ-ray spectroscopy measurements 573
Irradiator dose mapping simulation using the MCNP code 537
Response functions for a NaI(Tl) detector: Monte Carlo simulation 517
Transmission
Method for irregular samples: correlation of uncertainties 445*
Use to determine coal ash content: evaluation of uncertainties in on-line measurements 353
Use to determine soil, surface sealing after spraying liquid sewage sludge 375
Gas
Sampling of thermal waters in Slovenia: $^{3}He/^{4}He$ ratios 919
Gauge
Surface neutron gamma: use to estimate soil water content 369
Generator
^{99} Mo-^{99m}Tc: use of large alumina column 7
$^{188}W/^{188}Re$: development using titanium tungstate gel as base 641
^{188}W-^{188}Re: use of large alumina column 7
Glass
Colored: dosimetric properties 407
Plate: comparison with lead for shielding of diagnostic X-ray units 819
Soda lime silicate: fading behaviour of X-ray induced colour centers 813
Gold
Foil, heavy ion activation to produce thallium radionuclides 483
^{199}Au: production in Portugese RPI reactor 657
Granite
Radioactivity levels at Gable Gattar II (Egypt) 131*
Gypsum wallboard
Comparison with lead for shielding of diagnostic X-ray units 819

Half life
Of ^{189}W 637
Halogenation (radio)
Of nitroimidazole-based hypoxia markers: use of microwaves 697
Heavy ion activation
Use to produce thallium 483
Helium
$^{3}He/^{4}He$ ratios in thermal waters in Slovenia during seismic activity 919
Hip prosthesis, metal
Effect on radiation dose in therapeutic photon beam irradiations 17
Holmium
^{166}Ho production in Portugese RPI reactor 657
Hypoxia
Detection: synthesis and characterization of an adduct of 2-[^{18}F]FDG and 2-nitroimidazole 705
Marker synthesis: microwave assisted radiohalogenation of nitroimidazoles 697
Tissue: use of ^{99m}Tc labelled Pn-Ao-azomycin glucuronides as imaging markers 719

Imaging
Detection of explosives by digital radiography and CT 861
Marker for tissue hypoxia: use of ^{99m}Tc labelled PnAo-azomycin glucuronide 719
Plate: energy response to a standard β-source 875
SP receptor response: use of ^{99m}Tc labelled substance P 729
System: using a linear detector array: minimisation of artefacts 543
Indium
^{111}In: chemical speciation in aq. solution: investigation by a 1-PAC detector method 437
InterSource^{103}
Dosimetric parameters 805
Iodine
^{123}I, ^{124}I and ^{131}I: adsorption on a platinum column 475

^{125}I: adsorption on silver wire as matrix for a brachytherapy source 359
Ion exchange
Column: use in the production ^{11}C-acetate 857*
Synthesis of zirconium vanadate for the separation of barium and cesium at tracer levels 471
Use of Dowex-1 to concentrate pertechnetate from generator eluant 7
Use to separate ^{64}Cu from an irradiated target 773
Iron
Determination in mussels consumed in Anatolia, Turkey 565
Isonitriles
Use in the n.c.a synthesis of asymmetric [^{73,75}Se] selenoethers 51

K_0 –standardization
Use in validation of NAA method for multielements 391

L_3 subshell fluorescence yields
Of some elements in the atomic range $57 \leqslant Z \leqslant 68$ using photoionisation 57
Lambrecht, Richard M (1943–2001)
Obituary 605
Lead
Attenuation and hardening equivalence: comparison of materials used for shielding in diagnostic X-ray units 819
Determination in mussels consumed in Anatolia, Turkey 565
^{210}Pb activity in soil profiles of the Flysch sector of the central Spanish Pyrenees 579
Lithium
^{7}Li beam : use for heavy ion activation in the production of thallium radionuclides 483
Lutetium
^{177}Lu labelling of cyclic polyphosphponates for bone pain palliation 177
^{177}Lu production in Portugese RPI reactor 657
Lyoluminescence
Studies of trehalose dihydrate 93

Meta-iodobenzylguanidine
Radioiodination and use to produce [^{123}I]-*N*-succimidyl-3-iodobenzoate 743
2-Methyl-[1-^{11}C] acryloyl chloride
Use in the synthesis of ^{11}C acyl chlorides 675
Methyl triflate
^{11}C labelled: use in the preparation of [^{11}C]verapamil 505*
Microwave
Use in the radiohalogenation of nitroimidazole based hypoxia markers 697
Modified spectral index
For k_0NAA: measurement using the Cd-ratio method 265
Molybdenum
Use as a thick target for proton-cyclotron production of Tc isotopes 617
Monazite
Separation and quantification of ^{238}U, ^{232}Th and rare earths by ion chromatography 463
Monte Carlo
Calculations (MCNP4B) use in dosimetric study of a new Pd seed 805
Calculations of dosimetry parameters for the Model 3500 I-Plant ^{125}I brachytherapy source 381
Evaluation of dosimetric characteristics of the Best® Model 2301 ^{125}I brachytherapy source 327
Simulation for a BGO detector in borehole geometry using a MCNP code 449
Simulation of depth dose curves in an acrylic phantom 825
Simulation of γ-ray response functions for a NaI(Tl) detector 517
Simulation of irradiation in the presence of a metal hip prosthesis: dosimetry 17
Simulation of the self absorption corrections for natural samples in γ-ray spectrometry 893
Simulation of ^{90}Y production using a 33 MeV linac 509

Mussels(Mytilus galloprovincialis)
Trace metals and ^{210}Po(^{210}Pb) concentrations in mussels consumed in Anatolia, Turkey 565

Neptunium
Computer modelling for chemical speciation in human duodenal fluids 159
Neutron
Attenuation and reflection characteristics: use for classification of crude oils 831*
Spectra: measurement and prediction in the Kalpakkam mini reactor 25
Nickel
^{64}Ni enriched target: use to produce ^{64}Cu n.c.a. 773
Niobium
High yield, low pressure[^{18}O] water target for ^{18}F production 303
Nitrogen oxides
Removal from nitrogen target 857*
Nitroimidazole-based hypoxia markers
Microwave assisted radiohalogenation 697
Nuclide
Identification in emergency field conditions 67

Obituary
To Richard M. Lambrecht (1943–2001) 605
Octreotide
Labelled with ^{111}In, ^{90}Y, ^{64}Cu or ^{177}Lu: study of use for treatment of oncological diseases 749
Oil sample
Crude: classification by simultaneous use of neutron transmission and reflection techniques 831*
Oncology
Use of radiolabelled peptides in diagnosis and therapy 749
Optical absorption
Of X-irradiation in soda-lime silicate glass: fading behaviour of colour centres 813

Palladium
^{103}Pd seed, InterSource^{103}: dosimetric parameters 805
^{103}Pd seed-molecular plating on to a silver rod for use as a brachytherapy source 309
Peptide
Coupling with [^{123}I]-*N*-succinimidyl-3-iodobenzoate 743
Radiolabelled: use in the diagnosis and therapy of cancer 749
Use of ^{99m}Tc-SP for imaging receptor response 729
PET
Activation studies: production and dosimetry of [^{14}O] water 607
Cyclotron facilities: monitoring of stack effluent releases 899
Studies: preparation of ^{76}Br labelled epibatidine 713
Petroleum
Prospecting: application of thorium-normalised airborne radio-spectrometric data in Egypt 121
Phantom, acrylic
Effect of electron disequilibrium on dose calculations 825
Phosphorus
^{32}P: as residual activity in silicon rods irradiated by thermal neutrons 801
Photon
Beam irradiation: effect of a metal hip prosthesis on radiation dose 17
Photostimulated luminescence
Response: dependence on detection efficiencies for β-particles 875
Plant
Use of PETIS data for physiological studies 225
Plating
Solution for plating ^{103}Pd on to a silver rod 309
Platinum
Use to adsorb radio-iodine 475

Plutonium
Disproportionation reactions: acidity changes and balanced equations 1
^{238}Pu source: new design for intercomparison studies 171
^{239}PuBe: neutron and gamma spectra 167
Polonium
^{210}Po concentrations in mussels consumed in Anatolia, Turkey 565
Polyaminophosphonates, cyclic
^{177}Lu labelling to produce potential agents for bone pain palliation 177
Positron
Monitor for estimation of stack effluent releases from PET cyclotron facilities 899
Positron-emitting tracer imaging system(PETIS)
Data: transfer function analysis 225
Potassium
^{40}K activity in soil profiles of the Flysch sector of the central Spanish Pyrenees 579
^{40}K in rocks in Tushki region of Egypt: measurement of natural levels and pollutant levels 427
Program
BASIC: for estimation of acidity in plutonium reactions 1

Quartz
Unstrained geological grains: ESR of E' centres 491

Radioactivity
Assessment of natural activity in Tushki area, Egypt and environmental pollutant isotope measurement 427
Environmental at Stromboli (Aeolian Islands) 99
Environmental levels in granite of Gable Gattar II (Egypt) 131*
Radiography
Digital: use to detect explosives 861
Environmental measurements: development of a low background gamma spectrometer 213
Radio-immunotherapy
Labelling of monoclonal antibodies with ^{153}Sm 665
Radionuclide
Natural: MCNP modelling of scintillation-detector γ-ray spectra 449
Natural and anthropogenic: distribution in soil and sand samples at Kalpakkam (India) using γ-ray spectrometry 109
Production for radiopharmaceuticals in the Portugese research reactor: feasibility study 657
Therapy, intra vascular: evaluation of ^{99}Y-DTPA and ^{99}Y-DOTA 313
Radio-immunopharmaceutical
^{225}Ac labelled: design and synthesis 841
Radiology
Characterization of MOSFET and TLD dosimeters for skin dose measurement 883
Radiopharmaceutical
Feasibility of producing suitable radionuclides in the Portugese research reactor 657
Radioiodination of peptides with [^{123}I]-*N*-succinimidyl –3- iodobenzoate 743
^{201}Tl labelled: determination of ^{202}Tl impurities by γ-spectrometry 647
Radiotracer
Measurement of transport in plants by PETIS 225
Use of [^{82}Br]-*p*-dibromobenzene in investigation of malfunction of an aniline production reactor 319

Radium
^{225}Ra as a yield tracer in ^{226}Ra determination by α-spectrometry 785
^{226}Ra activity in soil profiles of the Flysch sector of the central Spanish Pyrenees 579
^{226}Ra determination by α-spectrometry 785
^{228}Ra: evaluation in environmental matrices at Poços de Caldos plateau, Brazil 591
^{228}Ra:determination in drinking water 213
Radon
Concentration in thermal waters in Slovenia during seismic activity 919

In groundwaters from the Guarany aquifer, S. America 931
Measurement using LR115 detectors 275*
Rare earths
Separation and quantification in monazite samples by ion chromatography coupled with an on-line detector 463
Reactor
KAMINI (Kalpakkam mini reactor): measurement and prediction of neutron spectra 25
MNSR (Ghana): characterization of the neutron flux spectra 265
Portugese research reactor(RPI): feasibility study of production of radionuclides for radiopharmaceuticals 657
Rhenium
Generator using a 'jumbo' alumina column 7
^{188}Re generator: development of a titanium tungstate based gel 641
^{186}Re production in Portugese RPI reactor 657
Rhizopus arrihizus
Biosorption of ^{241}Am 139
Rock
Magmatic: study of correlation between radionuclide and chemical elements abundancies 99
Sandstone: radon concentration and water/rock interaction 931
Rod
Silicon: determination of residual activity after irradiation with thermal neutrons 801

Samarium
^{153}Sm production in Portugese RPI reactor 657
^{153}Sm: use to label monoclonal antibodies for use in radio-immunotherapy 665
Sample
Irregular thickness: linear attenuation coefficient determination by γ-ray transmission 445*
Natural: γ-spectrometry and Monte Carlo simulation of the self absorption corrections 893
Position: propagation of uncertainties to the uncertainty of counting efficiency in γ-ray spectrometry 415
Sand
Beach at Kalpakkam (India): distribution of natural and anthropogenic radionuclides 109
Scintigraphy
Gamma: characterization and validation of method for determining liquid hold-up in foam 243
Scorpion venom
Labelling with ^{99m}Tc 849
Sediment
Fine, in suspension: hydrodynamic studies using ^{99m}Tc as a tracer 85
γ-spectrometry: determination of the self absorption correction 915*
Marine:^{234}Th analysis via chromatography and LS counting 235
^{228}Ra determination at Poços de Caldas plateau, Brazil 591
Seed
^{103}Pd: dosimetric study 805
Selenium
^{75}Se Production from ^{nat}Br: excitation functions 907
[^{73,75}Se]Selenoethers, asymmetric
N.c.a synthesis with isontriles 51
Self absorption factor correction
Determination for sediment sample γ-spectrometry 915*
Shell
Subfossil from Couve island, Brazil: ESR dating 497
Shielding
Of X-ray units: comparison of lead attenuation and lead hardening equivalence of materials 819
Silicon
Rod: residual activity determination after irradiation with thermal neutrons 801
^{31}Si as residual activity in silicon rods after neutron irradiation 801
Silver
^{111}Ag production in Portugese RPI reactor 657

Skin
Dose measurements in diagnostic radiology: characterization of MOSFET and TLD dosimeters 883
Soil
At Kalpakkam (India): distribution of natural and anthropogenic radionuclides 109
Compaction: measurement by γ-ray computed tomography 375
Multi-element profile using EDXRF 279
Profiles of the Flysch sector of the central Spanish Pyrenees: ^{238}U, ^{226}Ra, ^{210}Pb, ^{232}Th and ^{40}K activities 579
^{228}Ra determination at Poços de Caldas plateau, Brazil 591
Water content and bulk density: estimation by use of surface neutron-gamma gauges 369
Solids
Suspended: ^{228}Ra determination at Poços de Caldas plateau, Brazil 591
Solution
Acidity changes in disproportionation reactions of plutonium 1
Source
α-particle: effect on sensitivity of a WPSCD when moved in a parallel plane 557
Beta: energy response of an imaging plate 875
^{238}Pu: new design for intercomparison studies 171
Spectra
Gamma ray, of natural radionuclides: simulation for a BGO detector using Monte Carlo code MCNP 449
Gamma ray from HPGe detectors: analysis of data obtained in field conditions without energy calibration 67
Neutron: measurement and prediction in the Kalpakkam mini reactor 25
Neutron and gamma ray: of ^{239}PuBe and ^{241}AmBe 167
Neutron flux: characterisation in irradiation sites of the MNSR reactor 265
Spectrometry
Use for determination of ^{226}Ra 785
Gamma-ray
HPGe: use to determine distribution of natural and anthropogenic radionuclides in soil and sand samples at Kalpakkam (India) 109
Intra and interlaboratory test of the Dutch protocol 73
Low background for environmental radioactivity 213
Propagation of uncertainties of sample position to the uncertainty of counting efficiency 415
Self attenuation corrections: evaluation by Monte Carlo calculation 893
Surface and aerial: use in prospecting for petroleum accumulations in Egypt 121
Use to determine ^{202}Tl impurities in [^{201}Tl] labelled radiopharmaceuticals 647
Spectroscopy
Gamma: use to measure atmospheric ^{7}Be properties 941
Prompt γ-ray involving γ-γ coincidence measurements 573
Spleen
Effect of total removal or transplantation in rats on bacterial clearance 767
Steel
Shielding : comparison with lead for X-ray diagnostic units 819
Strontium
^{90}Sr: measurement in aq. samples using LS counting with full spectrum DPM method 257
^{90}Sr-body burden measurements and evaluation of uncertainties 525
Substance P(SP)
^{99m}Tc labelling 729
N-Succinimydyl-3-iodobenzoate
Labelling with ^{123}I and coupling with bioactive peptides 743
Survey
Application of thorium-normalised airborne radiospectrometric data in petroleum prospecting 121

Tacrine
Tritium labelling and characterization as a cognition enhancing drug in Alzheimers disease 837
Target
High yield, low pressure [^{18}O] water of titanium and niobium for ^{18}F production 303
^{64}Ni enriched : use to produce n.c.a.^{64}Cu 773

Nitrogen: use to produce ^{11}C 857*
Recycled [^{18}O] water: effect on yield of [^{18}F]FDG 43
Thick: yields for $^{nat}Mo(p,xn)^{94g,\ 95m,\ 95g,96(m+g)}Tc$ reactions induced by protons 617
Thin: excitation functions and cross sections for production of Tc isotopes from Mo 617
Technetium
^{94g}Tc: production via proton-cyclotron irradiation of Mo targets 617
^{95g}Tc: production via proton-cyclotron irradiation of Mo targets 617
^{95m}Tc: production via proton-cyclotron irradiation of Mo targets 617
^{96g}Tc: production via proton-cyclotron irradiation of Mo targets 617
^{99m}Tc
Labelling of tityustoxin and venom from the scorpion *Tityus serrulatus* 849
Use as an adsorbable tracer for hydrodynamic studies of fine sediments 85
Use to label substance P; a regulatory neuropeptide 729
^{99m}Tc-ciprofloxacin
Synthesis and biodistribution 193
^{99m}Tc-ESTCPTA
Tissue distribution in rats and comparison with ^{99m}Tc-MIBI 733
^{99m}Tc-MIBI
Tissue distribution in rats and comparison with ^{99m}Tc-ESTCPTA 733
[^{99m}Tc]$NaTcO_4$
Generator using a 'jumbo' alumina column 7
[^{99m}Tc]TRODAT-1
Biodistribution study in mice with macroautoradiography 35
Thallium
Radionuclides: production by heavy ion activation methods and separation 483
^{202}Tl impurities in [^{201}Tl] labelled radiopharmaceuticals: γ-spectrometric determination 647
Thorium
Content in building materials using SSNTD methods 285
^{232}Th activity in soil profiles of the Flysch sector of the central Spanish Pyrenees 579
^{232}Th measurement in rocks in the Tushki region in Egypt: natural and pollutant levels 427
^{232}Th: separation and quantification in monazite by ion chromatography coupled with an on-line detector 463
^{234}Th: analysis in marine sediments 235
Thoron
Measurement in buildings using SSNTD methods 285
Thulium
^{170}Tm production in Portugese RPI reactor 657
Tissue
Distribution of ^{99m}Tc-ESTCPTA and ^{99m}Tc-MIBI in rats 733
Titanium
High yield, low pressure [^{18}O] water target for ^{18}F production 303
Tungstate: use in $^{188}W/^{188}Re$ gel generator 641
Tityustoxin
Labelling with ^{99m}Tc 849
Tomography
Computed: use in the detection of explosives 861
Gamma-ray, computed: use to characterize soil surface sealing 375
Using a continuous-rotate X-ray system: artefact minimisation 543
Trehalose dihydrate
Lyoluminescence and ESR correlation studies 93
Tritium
Labelling of tacrine and characterization as a cognition enhancing drug in Alzheimers disease 837
Tungsten
Of natural isotopic abundance : use in a gel generator for ^{188}Re 641
^{189}W decay scheme after production by the $^{192}Os[n,\alpha]^{189}W$ reaction 637

Uncertainties
Calculations for measurement of linear attenuation coefficients for irregular samples 445*
Evaluation in ^{90}Sr body burden measurements obtained by a WBC 525
Uranium
Computer modelling of chemical speciation in human duodenal fluids 159
^{238}U activity in soil profiles of the Flysch sector of the central Spanish Pyrenees 579
^{238}U:natural and pollutant levels in rock in the Tushki region of Egypt:measurements 427
^{238}U:separation and quantification from monazite by ion chromatography coupled with an on-line detector 463

Venom
Scorpion: labelling with ^{99m}Tc 849
Verapamil
^{11}C labelled : preparation 505*
Volcano
Stromboli (Aeolian Islands.): study of environmental radioactivity 99

Waste
Liquid: ^{90}Sr determination using LS counting with full spectrum DPM method 257
Water
Content of soil: estimation by surface neutron-gamma gauges 369
Drinking: ^{228}Ra determination 213
Ground from the Guarany aquifier, S. America: radon concentrations 931
^{14}O labelled: production for PET studies 607
[^{18}O] labelled, recycled: effect on yield of [^{18}F]FDG when used as a target 43
Thermal in Slovenia: geochemical monitoring and radon concentration 919
Whole body
Counter: use to measure ^{90}Sr-body burdens and evaluation of uncertainties 525
Retention and absorption of zinc and calcium from bread 153

X-ray
Based tomographic imaging system: artefact minimisation 543
Detection by CCD detectors: effect of high radiation background 867
Diagnostic unit shielding: lead attenuation and lead equivalence of steel, plate glass and gypsum wall board 819
EDXRF: use to determine multi-element profiles of soil 279
Fluorescence: use to determine trace metals and ^{210}Po in mussels 565
Induced colour centres in soda-lime silicate glass: fading 813
L_3 subshell of Au,Hg,Pb,Tl,Bi,Th and U at 59.5 keV: measurement of Coster-Kronig vacancy transfer factor 63
Production cross sections for elements in the atomic range $57 \leqslant Z \leqslant 68$ 57

Ytterbium
^{175}Yb: production by the (^{174}Yb (n,γ)^{175}Yb) reaction by neutron bombardment of a natural ytterbium target 295
Yttrium
^{90}Y production using a 33 MeV linac: Monte Carlo simulations and experimental studies 509
^{99}Y labelled DTPA and DOTA: evaluation for use in intra-vascular radionuclide therapy 313

Zinc
Extrinsic labelling of ^{65}Zn in bread and absorption 153
Zirconium
Investigation of the ^{90}Zr(n,p))^{90}Y reaction 509
Vanadate: synthesis and characterization for use as an ion exchanger for Ba and Cs at tracer levels 471
[^{11}C]Zofenoprilat
Synthesis 675
